TREASURY TAKES IN CASH FAST. Hanks Lose Much More Than Shaw's De-

posit Gives Them. The Sub-Treasury here has deposited with banks more than \$1,900,000, and it was said yesterday that there is a likelihood of a further increase over the \$1,500,000 which, according to Washington

\$1,500,000 which, according to Washington advices, was apportioned to this city when on Monday Secretary Shaw decided to deposit \$10,000,000 in banks throughout the country. As a matter of fact, officials of the Sub-Treasury said yesterday no instructions to limit the deposits in New York banks had reached them. But generally it was believed that the refusal of some St. Louis banks and probably others to take their quota made it possible for the Secretary to increase the apportionment to New York There has been such an outcome on previous occasions.

On the other hand, payments on account of customs have been the cause of much On the other hand, payments on account of customs have been the cause of much heavier cash losses by the banks to the Sub-Treasury throughout the week. For the last three days customs receipts have averaged about \$1,250,000 daily, and from Friday until yesterday the banks had lost at least \$4,500,000 cash. In other words, they are paying money into the Sub-Treasury much more rapidly than the Government is depositing money with them. Under these circumstances, a banker said yesterday, the banks are having difficulty in replenishing reserves that were \$8,702,000 bhort at the time of the last weekly statement.

ment.

The prevailing rate of call loans yesterday was 13 per cent. The high rate was 16, the low 4 and the closing 4 per cent. Demand sterling dropped 30 points and closed at 4.8340@4.8345. The low rate of the day was 4.8325, and this also was the lowest point reached for several months. At all times of the day the sterling exchange rate permitted profitable importation of gold, but as far as could be learned no lengagements were made. The decline in the foreign exchange market was considered to be principally due to the imthe foreign exchange market was considered to be principally due to the improved showing made by the Bank of England, which reported its ratio of reserve to deposits at 47.02, as against 44.84 last week. More than \$4,000,000 gold was engaged in London for South America, and it is thought some of this might have been secured for American account had New York known earlier of the Bank of England's improved position.

More Pittsburg and Lake Erie Stock. The directors of the Pittsburg and Lake Erie Railroad have called a special meeting of the stockholders to be held in Pitts-burg on February 28 to authorize an in-crease of he capital stock from \$10,000,000 to \$30,000,000. This line is controlled by the New York Central, and it is surmised that at least a part of this money will be used to build the new Lake Erie and Pitts-burg Railway, which is to extend from Youngstown to Cleveland. Holiday Displays of DIAMONDS, GOLD JEWELRY and WATCHES.
